

Anti-DYKDDDDK tag, AlpHcAbs® Mouse IgG2b antibody(iFluor594)

Summary

Code 016-303-008

Immunogen DYKDDDK tag fusion protein

Host Alpaca pacous

Isotype Fab of alpaca IgG1 fused to Mouse IgG2b Fc(mutation)

Conjugate iFluor594(Ex: 592nm, Em: 614nm), 3 moles iFluor594 per mole IgG

Specificity DYKDDDDK tag sequence

Cross-Reactivity Highly selective for DYKDDDDK tag sequence
Purity Recombinant Expression and Affinity purified

Concentration 1mg/ml

Formation Liquid, 10mM PBS (pH 7.5), 0.05% sucrose, 0.1% trehalose, 0.01% proclin300,50% Glycerol

Storage Store at -20 °C (Avoid freeze / thaw cycles), protect from light

Description

Anti-DYKDDDDK tag, AlpHcAbs® Mouse IgG2b antibody(iFluor594) is designed for detecting DYKDDDDK tag fusion protein specifically. Anti-DYKDDDDK tag, AlpHcAbs® Mouse IgG2b antibody(iFluor594) is based on recombinant, IgG2b Fc fused fab of alpaca IgG1 to DYKDDDDK tag coupled to iFluor594. Based on western blot and ELISA, Anti-DYKDDDDK tag, AlpHcAbs® Mouse IgG2b antibody(iFluor594) reacts with the DYKDDDDK tag selectively, no reactivity with other proteins.

Background

The DYKDDDDK peptide are widely used for detecting, manipulating or purifying proteins. This peptide can be expressed and detected with the protein of interest as an amino-terminal or carboxy-terminal fusion. Because of its small size, DYKDDDDK tag is unlikely to affect the tagged protein's biochemical properties. DYKDDDDK tag is useful for the labeling and detection of proteins using immunoblotting, immunoprecipitation, and immunostaining techniques.

Using antibody with Fc(mutation), the background from Fc receptors will be eliminated.

Benefits

High lot-to-lot consistency Increased sensitivity and higher affinity

Animal-free production

Suggested Working Concentration

ELISA 1:5,000-1:20000
WB 1:5,000-1:20000
Flow Cyt 1:200-1:2000
ICC/IF 1:200-1:2000

Dilution factors are presented in the form of a range because the optimal dilution is a function of many factors, such as antigen density, permeability, etc. The actual dilution used must be determined empirically.
