

Anti-Alpaca BCMA, AlpHcAbs® Rabbit IgG antibody(APC)

Summary

Code#	087-201-011
Immunogen	Alpaca BCMA
Host	Rabbit
Isotype	Rabbit IgG
Conjugate	APC(Ex: 651nm, Em: 662nm)
Specificity	Alpaca BCMA
Cross-Reactivity	Highly selective for alpaca BCMA
Purity	Recombinant Expression and Affinity purified
Formation	Liquid, 10mM PBS (pH 7.5), 0.05% sucrose, 0.1% trehalose, 0.01% proclin300
Storage	Store at 2-8 °C, Protect from light.

Description

Anti-Alpaca BCMA, AlpHcAbs® Rabbit IgG antibody(APC) is designed for detecting alpaca BCMA specifically. Anti-Alpaca BCMA, AlpHcAbs® Rabbit IgG antibody(APC) is a monoclonal, recombinant, rabbit IgG antibody to alpaca BCMA coupled to APC. Based on flow cytometer and ELISA, Anti-Alpaca BCMA, AlpHcAbs® Rabbit IgG antibody(APC) detects the alpaca BCMA selectively, no reactivity with other proteins.

Background:

The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor is preferentially expressed in mature B lymphocytes, and may be important for B cell development and autoimmune response.

Benefits

High lot-to-lot consistency
 Increased sensitivity and higher affinity
 Animal-free production

Application notes

Flow Cyt: 1:200-1:1000
 ICC/IF: 1:200-1:1000

Dilution factors are presented in the form of a range because the optimal dilution is a function of many factors, such as antigen density, permeability, etc. The actual dilution used must be determined empirically.
